NEGRO KILLED YESTERDAY.

Brice Edwards Killed Instantly at I. C. Depot By Walter Pettus.

QUARRELED ONSUNDAY.

Difficulty Began By Pettus Cursing Edwards' Mother.

A little before 7 o'clock yesterday morning Brice Edwards lay dead on the platform of the I. C. depot stabbed through the left auricle of the heart by Walter Pettus. Both parties were colored.

From what could be gathered the men had quarreled Sunday. The cause of the quarrel, it is said, was Pettus having cursed the mother of Edwards. Yesterday morning they met at the I. C. depot and the difficulty was renewed. It is said that Pettus drew a long pocket knife and made several attempts to cut Edwards. Edwards managed though to keep out of reach of Pettus' knife and finally grabbed a small piece of plank and with it struck his assailant a blow on the head which knocked him down. Pettus then rose and made at Edwards again with his knife, but as the first blow with the plank had broken it Edwards was unable to defend himself and Pettus plunged the knife into his left breast, the blade entering the heart. Edwards fell and was dead in a few seconds.

Seeing that he had killed his man, Pettus started on a run up Water street towards 8th and at 5 o'clock had not been captured. The difficulty was witnessed by several persons but nobody attempted to arrest the murderer. The police was notified, but it was all done so quickly that the police could not get to the scene of the tragedy in time to get all the particulars before Pettus had gotten away.

The murder caused great excitement and hundreds gathered at the depot and saw the dead man lying on the platform, awaiting the arrival of the coroner, but as he could not be found Edwards' friends were allowed to take the body home.

The victim was a young man, aged about 22 and was the only son of his mother. He was industrious and well liked by those who knew him.

His mother was notified of her son's fate and hurried to her dead boy. When she saw him dead on the platform she became frantic with grief and her wailing could be heard to the far end of the platform, as she wept over her son. She told those standing around her how obedient he was and what a help he had been to her since he had grown to manhood.

BIG REVIVAL

To Continue Two Months at Dawson.

A revival meeting is in progress at the Baptist church in Dawson, Rev. T. N. Compton did the preaching last week, and the Rev. Carter Helm Jones, of Louisville, and the Rev. Dr. Len G. Broughton, of Atlanta, Ga., will conduct the services this week. The meeting will continue for two months and the following ministers will take part during the time:

Second week in July—Rev. Carter Helm Jones and Rev. Dr. Len G. Broughton.

Third—Rev. J. J. Taylor, President of Georgetown College.

Fourth—Rev. Lloyd T. Wilson.

AUGUST.

First week—Rev. C. H. Nash.
Second—Rev. W. C. James.
Third—Rev. Dr. T. T. Eaton.

CITY FATHERS IN SESSION.

Transact Usual Business and Make Some Pavement Orders.

RESTAURANT LICENSE.

Street Work Will Be Given Special Attention For This Month.

The council met Friday night with the mayor and all councilmen present.

The usual monthly reports were received and filed. That of the chief of police showed cash collections for the month of \$498.85.

The report of Assessor J. G. Cooper was received, showing the taxable property to be \$2,931,000. The white tithes 1,055 and the colored 683.

The mayor's report of the settlements made by him with President Edmund Harrison, of Bethel College, and the Misses Phelps, in the matter of the 17th street sewer, was received and his action approved. The written agreements were ordered to record. The city effected a settlement in a matter that has been a source of trouble for years at an expense of about \$75 for the college and a rental charge of \$12 a year with the Misses Phelps, so long as they own their present residence and the drainage of the city passes through the ravine on their farm in the western suburbs. The sewerage heretofore piped into the fresh water sewer is being taken care of by the Hopkinsville Sewerage Co. The connections will be made at once.

The city attorney was instructed to proceed according to law to force parties to put down pavements and curbing as ordered on Brown, Virginia, Liberty and 17th streets as follows: Pavements and curbing on Brown street from 7th to 2nd; on south side of 17th from Virginia to Railroad, on Virginia, between 6th and 7th, and east side of Liberty, from 9th to 14th.

By a vote of four to three, stone curbing and cinder walks were ordered put down on both sides of 10th street from Clay to Railroad street, a distance of 164 feet, the city to construct concrete valleys.

The following parties were granted restaurant licenses, those located in saloons for only six week days. Those not in saloons are to have no openings of any kind connecting them with saloons adjoining or adjacent: E. H. Williams, F. Schmitt, Brackroge Bros., W. E. Mason, col.; Chas. Shelby, col.; G. M. Fisher, col.; Susan McKeynolds, col.; Fannie Boyd, col.; L. W. Gladdish, col., and John Diuguid, col. Other restaurants that failed to apply for licenses will have no opportunity to secure them until July 20th.

The matter of issuing license to L. W. Berry, col., to operate a pool room was referred to the mayor by vote of council.

The accounts allowed aggregated about \$300.

CHANGE

Of Waiting Rooms at I. C. Station.

The waiting rooms at the Illinois Central Station are to be changed at once. The north room heretofore used by the colored people is to be renovated for the future use of white people. The south room will become the waiting room of the blacks.

This will be far more convenient for both classes of passengers, as the coaches and sleepers for white people stop in front of the north room and the car for colored people stops near the door of the south room, and in going to their respective cars the two classes of travelers had to pass each other on the platform. This was about as inconvenient as could possibly have been arranged and caused a good deal of annoyance when a crowd was either going away or waiting to see friends off on the train. We congratulate Agent Mallon on the change he is making. The change will take place as soon as the rooms can be renovated and put in order, and everybody will be glad.

CLAGGETT'S HORSE

Brought \$1,750, the Best Price of Any, July 4.

Ward Claggett, who shipped a fine Herbert colt with the Williams & Radford shipment, is the happiest man in the county. His colt brought \$1,750, the highest price of any. It was his first experience as a breeder and he is wild with joy and enthusiasm. One of Mr. W. A. Radford's colts brought \$875 and the other \$150. Mr. W. E. Forgy's brought \$150. The fourteen head of Williams & Radford brought \$4,075. The sale took place on the national holiday in a pouring rain and was a great disappointment, as the attendance of buyers was very small. They will make another shipment forth the September sale.

SOLD OUT.

J. K. Twyman Sells Grocery to Mr. B. B. Rice.

Councilman J. K. Twyman sold his stock of groceries to Mr. B. B. Rice Saturday and began invoicing yesterday. Mr. Joe Ferguson, who was a partner of Mr. Twyman, and Mr. J. B. Harris, late of the Hopkinsville Grocery Co., will have oversight of the business. Mr. Rice is the traveling representative of the Majestic Manufacturing Co., of St. Louis, and will not resign his position until January 1st, 1907, when he will take control of the store.

FALL FAIR.

Date of Guthrie Meeting August 23, 24 and 25.

Attention is called to the Kentucky and Tennessee Fair Association, which appears in this issue of the Kentuckian, concerning the Guthrie fair to be held August 23, 24 and 25. Nearly \$4,000 will be offered in stakes, purses and premiums. The officers of the association are: Frank Walton, president; George Snadon, vice president; W. R. DeBerry, treasurer, and R. Lester Secretary.

Great Time.

Odd Fellows and their wives and members of the Daughters of Rebecca, to the number of 175, went to Clarksville Sunday on their special train. They were treated most royally by their hosts and the event will not soon be forgotten. Every courtesy was shown the visitors and they are loud in their praises of Pythagoras and Home lodges of our neighboring city.

Illness Was Brief.

W. B. Brandon, of Roaring Springs, died last Thursday night at the home of his father, M. Brandon, after an illness of about two weeks of uremic poisoning. He was thirty-six years old.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address:

\$50,000 INCREASE.

Planters Bank & Trust Co.'s Increasing Business Demands More Capital.

The announcement Friday, by the gentlemen placing \$50,000 additional stock of the Planters Bank & Trust Company on the market, that the last share had been taken was not a surprise to this paper, though for prudential reasons, we refrained from making it public. Since then the officials have announced a meeting of the directors for the 19th of this month for ratifying the sale and authorizing the increase of the capital.

The addition of the trust feature of the second oldest bank in the city has had much to do with the great success of the bank. The call for funds has succeeded all expectations, in fact so great has been the demand of late that it was found absolutely necessary to secure more money for the accommodation of the borrowing public.

This apartment is now handling about \$200,000 in trust funds, which is pretty good evidence of the people's faith in the bank founded by the Trices.

GREAT OCCASION.

The barbecue, country dance and old fiddlers' contest at Cerulean Saturday proved a drawing card and all were well patronized. While the crowd which partook of the barbecued meats was no quite so large as on some previous occasions, of the twenty carcasses, nearly all the meat was consumed and the dinner was greatly enjoyed. In the afternoon the "country dance" was indulged in by a tremendous crowd. The dancing was conducted in the pavilion and every inch of floor space was taken during the time. At night the old time fiddling drew a good crowd and the occasion was one long to be remembered. The following "old timers" from Hopkinsville participated: W. F. Randle, leader; Messrs. T. E. Bartley, J. G. Hord, Robert McCarrroll, Jewell Smith, A. J. Meador, Stanley Long, Dr. W. C. Cunningham, of Cadiz, led the Trigg county contingent, and Elijah Cravens, of Henderson, and Charles H. Faulkner, of Gracey, represented their respective places. Jap N. Sisk, of White Plains, was on hand and added much to the enjoyment of the occasion. Major Overby, of near Cerulean, also participated in the musical programs.

George Gardner, a much respected colored man, of Gracey, died Saturday after a long illness, aged 50 years. He was prominent in lodge circles and his funeral, which occurred Sunday, was largely attended.

LAFAYETTE NEWS.

Numerous Items Sent Kentuckian From South Christian.

Lafayette, Ky., July 7.

EDITOR KENTUCKIAN:
The rains last week made a great improvement in the crops. Corn and tobacco are doing fine. Most of the wheat in this vicinity has been threshed and the weather was pleasant during most of the threshing season. It was saved in good condition and the yield was above the average.

A great many people went from this city to Dumps' Mills the Fourth to a barbecue, given by the Dark Tobacco District Association. They reported a large crowd and plenty to eat. There was speaking on the occasion.

The road scrapers have just finished their work in this neighborhood, and they did a good job. Their good work is highly appreciated, for the roads were very rough.

Mrs. Stella Fitch, of Bowling Green, and Miss Elizabeth Riggs, of Louisville, are visiting the family of J. L. Thacker, of this place.

Mrs. Kenneth Stone, who has been visiting her mother and father, Mr. and Mrs. J. W. Griffin, of this place, left a few days ago for her home in Yazoo, Miss.

Mr. and Mrs. Ed L. Weathers visited relatives in Murray last week. Mr. Teeney Anglin, of Hopkinsville, was in town Wednesday.

Wilkie Thacker, of Cadiz, was here Tuesday.

Mrs. Walter Purrell, of El Paso, Texas, is expected here today to visit the family of L. J. Purrell.

The little girls of this place celebrated the Fourth by promenadeing over town and holding a concert at each house. They sang pretty songs and their behavior was excellent. They were dressed in white, trimmed in red and blue, and each carried a flag. The crowd was preceded by Master Garland Crenshaw, who beat a tattoo on a small drum, and they attracted a great deal of attention. The singers were Misses Mabel Joiner, Charlie Crenshaw, Bessie Heister, Elizabeth Biddle, Mary and Ruth Beazley, Bessie May and Eva Roper, Bena and Lucie Locker, and Camille Allenworth.

A Sustaining Diet.

These are the enervating days, when, somebody has said, men drop by the sunstroke as if the day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of our readers, that the full effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic, say, a sustaining diet. It makes it much easier to bear the heat, assures refreshing sleep, and will without any doubt avert much sickness at this time of year.

PARSONAGE WEDDING.

Popular Young Couple Mary After Short Acquaintance.

A wedding somewhat out of the ordinary took place Saturday evening about 8:30 o'clock. The principals were Mr. Frank W. Eldridge and Miss Lula Boales, daughter of Mrs. Henry Laura Boales, on East 16th street.

Mr. Eldridge has been boarding with Mrs. Boales during his residence in this city and after supper the parsonage of the Methodist church and were married by Dr. Lyon. The couple were attended by Messrs. Ross Elgin and Ed Gray. Mr. Eldridge is the local manager for S. H. Kress & Co's store, and during his stay here has made many friends. His bride is a bright and vivacious young lady and quite popular. Mr. and Mrs. Eldridge will board with the bride's mother.

POWER OF HEREDITY

EXPERIMENT STATION FOR THE STUDY OF EVOLUTION.

Branch of the Carnegie Institution at Washington Which is Carrying On a Most Novel Work on Long Island.

Few know of the "Station for Experimental Evolution at Cold Spring Harbor, Long Island," or understand the novel character of the work being carried on there. This "laboratory," as it is generally called, is a branch of the Carnegie Institution at Washington, and was established about a year and a half ago for the purpose of studying heredity in plants and animals. And as an outgrowth of the work thus far accomplished, there has just been appointed by Assistant Secretary of Agriculture Hays a committee on eugenics, whose purpose will be to make a study of the heredity in man with a view to racial improvement. This committee will use for its data some of the researches that are

VIEW OF THE MAIN BUILDING.

being made into the heredity of plants and animals.

Although the experimental evolution is one of the latest practical developments of modern science, this Carnegie laboratory has chosen for the scene of its labors a locality that is gloriously primitive, being marked by the absence of all those modern "improvements" that usually characterize the suburban village—indeed, Cold Spring Harbor can be dignified by that designation.

The laboratory buildings are erected on a small fresh water pond emptying into the harbor beyond. A acres of land are utilized by the institution for its various experiments in botany and animal life, as shown by a number of neat inclosures containing deer, looking country, dignified guests of a somewhat questionable parentage, judging by their outward appearance; cattle, sheep, a greenhouse, and a "caviary" for the accommodation of insects. Adjoining the land belonging to the laboratory the Brooklyn Institute of Arts and Sciences has a building, to which it at present makes considerable additions, devoted to biological studies, while across the state way is the New York State Fish Hatchery, where millions of trout, bass, and other fish are reared out yearly for the benefit of the lakes and streams throughout the state.

C. B. Davenport, who has been associate professor of zoology at the University of Chicago for the past four years, is at the head of both biological laboratories at Cold Spring Harbor.

In his report of the first year's work Prof. Davenport states that the institution's first efforts have been directed to studies of heredity, which he declares, in spite of their importance for evolution, have been relatively neglected. To deal with this subject the laboratory has planned work which it will undertake in cooperation with others on all the main groups of animals and plants.

Following this programme, two and a half acres of laboratory land have been devoted to the rearing of "pedigreed plants," whose welfare has been watched by Drs. Britton and MacDougal, of the New York Botanical Garden, as well as by the botanist of the laboratory, Dr. Shull. Eighty-four different species of plants were chosen and kept under careful observation, several showing notable variations.

What the laboratory is doing with plants it is doing also with insects. In fact, Cold Spring Harbor just now might be called an insect paradise, and applications for entrance to the laboratory from minute insects of the forest should be numerous.

Besides special experiments that are being made at the laboratory with fish and snails, the principal investigations have been confined so far to domesticated animals—fowl, duck, pigeons, canary birds, goldfish, goats, sheep, cattle and the plain, everyday "farmhouse cat."

The two goats connected with the laboratory are Irish, and are decorated with certain peculiar "wattles" on the neck. The wattle is a fleshy, fleshy growth, according to Prof. Davenport, depends on the fact that the are typical abnormalities and subserve no function. They have been repeatedly observed in man. Now, the question is, with these two Irish goats at the laboratory, how will the wattle appear in their descendants? The interesting pair have had four offspring since their arrival at the laboratory. The same kind of experiment is being conducted with the few sheep at the laboratory and with a pair of Jersey and Holstein cattle, from Jersey. Prof. Davenport hopes to improve the quality of the Holstein milk. The five cats with which the laboratory started have already had 13 kittens.

Large Men. Stout Men.

Men who think they are hard to fit because they are out of the ordinary—can dress as neatly and becomingly as the most perfect tailor's model.

Inexpensively? Yes, extremely so. It's not the price that makes the fit; it depends entirely on the design and tailoring. Schloss Bros. & Co., of Baltimore and New York, are known the world over as Specialty makers of fine Ready-to-Wear Garments. They have made a study of draping large, stout men and men out of the ordinary proportions.

What we mean by "draping" is not merely "dressing," or "clothing." We mean fitting them perfectly in garments particularly designed to moderate where nature has been profuse and to fit out where nature has been deficient.

In other words, this Schloss clothing not only clothes the figure, but "drapes" it as well,—makes the style of the moment seem to have been especially designed for the wearer.

A trial is all that's necessary to convince you. Come to see us. Try one of these Schloss specialties and you will be surprised to see how well-proportioned and handsomely dressed you can look by simply wearing clothes especially designed by these skillful tailors to fit men of just your build and physique.

Prices are not high! To the contrary, very reasonable, because these celebrated clothes makers cut and tailor these goods in large quantities by the wholesale, and they cost you no more than similar clothes of ordinary size.

We are certain that if you come in and try on one of these suits you will become a permanent patron, and thank us for the suggestion. Yours truly,

J. T. WALL & CO.

The Old Reliable Jewelry House

of Hopkinsville is, after all, the best place to get anything in the jewelry line. There's a record behind us, a record of over thirty years; a clean record of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any Jeweler might feel proud of. And when we sell an article we have in mind that we have a record to maintain, and no shoddy methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record, is ever our aim, and goods are sold for as low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with the Old Reliable Jeweler.

New York Life.

Hopkinsville, Ky., April 30th, 1906.
Mr. Walter F. Garnett, Agent,
New York Life Insurance Co., City.

Dear Sir:—
It gives me pleasure to acknowledge receipt of statement of optional settlement on 20-Payment Life Policy, No. 223,593, for \$1,500.00, issued at age 35, with premium of \$52.50, taken out with you Apr. 29, '96. After having been insured for 20 years, I am offered a paid up policy for \$1,500 and a cash dividend of \$406.38, or the total value may be withdrawn in cash—\$1,215.85, (which is more than I have paid in in the 20 years) or a fully paid up policy payable at my death for \$2,215.00. The cash settlement of \$1,215.85 is equal to Term Insurance at \$12.87 per \$1,000 and an investment of the balance of premiums with 54 per cent. compound interest for twenty years. This showing is certainly a creditable one for the New York Life, and I will be pleased to give you my application for \$1,000 on the Ordinary Life plan.

Yours very truly,
C. E. WEST.

Men as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, dependent upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit, as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is so well known that it is sold by druggists, in fifty-cent and one-dollar bottles. You may have a sample bottle by mail free, also a *Bottle of Swamp-Root* pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured.

In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Reported to Be On the Eve of Changing Hands.

It is reported that the owners of the electric franchise are about to sell their franchise and plant. The parties are said to be from the West and negotiations have probably been in progress by mail or otherwise for some time. Anyway the would-be purchasers or their agents were in the city Saturday and the public need not be surprised to hear of the transfer of the property at any time.

Our information does not go far enough for us to state whether or not there will be an increase of the lighting power, but it is reasonable to say it will, as the increasing demand for light will probably demand it and the probable future use of electric motors will necessarily require an increase of voltage. As the gas plant is owned by the same company, it is presumed that if a new party acquires the electric plant they will take the gas plant in with it.

LITTLE VISITS WITH UNCLE BY

A Song.
There is never a life so high,
That it hath not a lowest crest;
There is never a life so dear,
That it never is sweetly blest!
Trudge along up the winding slope
To the top, and deserve your rest!

With a song in the way made glad
To the work with a blithe heart!
For a man to enjoy his life,
Must begin where the tollers start!
He must win the sweetest of all,
The applause for a well played part!

Ho! a song and the way is short,
In the sun or the driving rain!
Ho! a song and the end is swift,
Where at night he asleep hath lain!
Ho! a song and he is not won!
And the man hath not lived in vain!

The Rag-Time Eddy.
A robber held up an Omaha physician
and got away without losing his appendix.

The small boy who cannot sleep on a full stomach usually manages pretty well on his back.

We may not have many old masters in America but we certainly have enough slave drivers.

At Andover academy a student was expelled for kissing a pretty waitress. No wonder it is hard to keep a hired girl.

A Kansas man had four wives—not all at once but in succession. All died and the man suicided. Of course he was crazy. No sane man would kill himself after escaping such an ordeal as that.

If a man goes to Heaven, and his wife goes to Heaven, and his former sweethearts go to Heaven—will his wife want to pull the hair all out of their heads or will she congratulate them on their good judgment and ask them all in to a pink tea?

A Missouri farmer, whose hog was killed by a train, wrote the company's claim agent for a settlement. He opened his communication thus: "My runner back stole down your track a week ago to-day. Your 33 came down the line and snuffed his life away. You can't blame me—the hog you see, slipped through the cattle gate—so kindly run a check for 10 the debt to liquidate." He received the following reply: "Old 33 came down the line and killed your hog we know, but razor backs on rails are no picnic. You must meet with worse. Therefore my friend we cannot send the check for which you please; just plant your dead, place for his head, 'Here lies a foolish swine.'"

I used to drive by country road
O'er hill and dale and cross ravine,
But now the owner of the air
Is filled with nervous violence!
The birds have flown away in fright

At "Bunk" and blare of chauffeur's horn,
The fragrance of the blooming rose
All his odor has been shorn—
My nose is on a farm "out home."
He said his head off day by day!
Dug on the peaky auto car.
The monarch of the right of way!

At a recent convention where a number of trust magnates were in attendance, one of the speakers said: "We are a great band of brothers here on earth doing what we can for each other." The fool composer set it: "We are a great band of robbers on earth doing what we can to each other," and the proofreader, who was a socialist, let it go through in the version of the composer.

At "The Point."
Forty boys are splashing,
Run upon their reddened backs
In the daylight fasting.

Round the band the boarders come,
To the boat-house flogging—
Batters splash! The modest faint!
Oh, how awful shocking!

Then from out a boyish throat,
In a voice of thunder,
Comes a stern, affronted cry—
"Foolishes, duck under!"

Versaille.
"That new French actress is a great acrobat, isn't she? Did you get onto her triple split last night?"
"Triple split? No. I am two splits short. How was it?"
"Well, she did a split on the stage, split a bottle of beer in the wings and used split infinitives throughout the evening."

It was at this very point that somebody yelled "Police!"

DOCTOR CURED OF ECZEMA

Maryland Physician Cures Himself of Eczema with Cuticura Remedies. Prescribes Them and Has Cured Many Cases Where Other Formulas Have Failed—Dr. Fisher Says:

CUTICURA REMEDIES POSSESS TRUE MERIT

"My face was afflicted with eczema in the year 1897. I used the Cuticura Remedies, and was entirely cured. I am a practicing physician and very often prescribe Cuticura Resolvent and Cuticura Soap in cases of eczema, and they have cured where other formulas have failed. I am not in the habit of endorsing patent medicines, but when I find remedies possessing true merit, such as the Cuticura Remedies do, I am broad-minded enough to proclaim their virtues to the world. I have been practicing medicine for sixteen years, and must say I find your Remedies A No. 1. You are at liberty to publish this letter, or any part of it. I remain, very truly yours, G. M. Fisher, M. D., Big Pool, Md., May 24, 1905."

CUTICURA—THE SET, \$1. Complete Treatment for Every Humour from Pimples to Scrofula.

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle; dry without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation, and inflammation and soothe and heal; and, lastly, take Cuticura Resolvent Pills to cool and cleanse the blood. A single set, costing but one dollar, is often sufficient to cure the most torturing, disfiguring, itching, burning, and scaly skin, scalp, and blood humors, with loss of hair from infancy to age, when all else fails.

Cuticura Soap, Ointment, and Resolvent Pills, are sold throughout the world. Foreign and Chinese Agents: The Great Eastern Dispensary, Ltd., 100, North Canal Road, Singapore. Sole U.S. Agents: The J. C. Feltz Co., 100, North Canal Road, Singapore.

Hay Ride.

Last Friday night a lot of young people enjoyed a hay ride and luncheon at Mrs. James Moore's near the city. Two wagons were used. Following is a list of the ladies and gentlemen:

Misses Alice Dabney, Jennie Graham, Sallie George Blakey, Katie and Annie Hays, Maggie Ellis and her visitor, Miss Carrie Atkinson, of Earlington; Mary Jones, Bettie Lee Smith, Bessie Williams, Joy Herndon and Mrs. Thomas. W. Long. Messrs. Will Cowan, Will Winfree, John Stites, James Young, James Winfree, Dan Young, Dennis Shaw, Ben Moore, Guy Starling, John Thomas and Mr. Thos. W. Long.

After driving out to Mrs. Moore's and taking lunch on the lawn, some time was spent in conversation, when some of the singers entertained the crowd.

LOCAL LEAFLETS.

The foundation of the Episcopal parish house will soon be ready for the brick.

Dalton Bros. commenced laying brick on the girls' building of South Kentucky College Saturday. The frame work for the veneered brick walls has about all been put up.

Early home grown peaches are on the market and are quite plentiful and of good quality.

The fire ladders haven't had a run since Wheeler's warehouse and the ice factory burned. They are always ready but can stand the monotony.

The crowd in town Saturday was quite small. The farmers are very busy now, and as many of their suspended operations on the Fourth, they could not afford two holidays in one week.

As many wheat threshers as there are in the country, it will yet take some time yet to get through with the crop. We have heard of several crops that have been threshed and averaged twenty bushels to the acre.

It seems like the secret societies of the city are "waking up" and are all going to do something to make themselves and their families enjoy at least one day during the heated period. Picnics and excursions have been indulged in by nearly all the lodges in the city. It is now up to Knights of Pythias and Elks to "start something" if they want to "keep in the push." Both lodges "are there with the goods," both in point of membership and material, and if they make an effort there will be "something doing."

The Coming of the Circus.

Buster Brown tells us that he loves the circus, and although wise men say there is nothing new, he resolves that the circus is always new. Buster must have attended the Robinson show when he made his resolution. For twenty-four years the writer has missed no opportunity to attend it. In 1880 when a boy twelve years of age we arose at three o'clock in the morning to see them pass through the village where we then resided. It was about the last year Robinson's show traveled overland. We were so impressed with the elephants, the camels and the gilded wagons that three of us persuaded our parents to let us attend the afternoon performance that was to be given at the county seat. It meant a tramp of seven miles each way, but what was fourteen miles in comparison to seeing the wonders of the circus. After a hasty breakfast, we were too much excited to eat, we started on our long tramp, each having but half a dollar. We arrived at the center of attraction, dusty and hungry, but full of interest. The dust could remain on our clothing and our stomachs could go empty for a time but we felt that the show would not wait, and we immediately repaired to the grounds where the great tent was erected, and watched the preparation for the street parade. When it was formed we joined the throng of urchins that followed it from its formation to its disbanding. We were all akin. We might fight after the show was over, as was then the custom of boys from different towns, but then we had a common interest. We were as near paradise as it is possible for a mortal boy to get. In the afternoon we returned to the show grounds and were among the first in. The awe and the wonder of that afternoon's performance are still fresh in memory. I have since seen a white walled city of 60,000 men. I have participated in parades and reviews of 50,000 men. I have seen parades of our soldiers when it required hours for them to pass a given point. I have seen one nation turn over the government; but these could not compare to that one performance of the circus. Like Buster Brown it is ever new to me. And when I see the enthusiasm of the boys of today for the circus, I appreciate the interest they feel. The man who grows too old to enjoy an American circus, has passed beyond the point of usefulness, and must be a misery to himself. If when the day arrives your son tells you of his needs for the circus, think of the great enthusiasm you felt toward it when a boy, and which I hope you still retain, and give to him liberally, that his cup of happiness may be filled.

The Robinson shows will be here next Monday, July 16.

sent about ten days. This will be
his first return visit to his native
state since he left there in 1890.

Miss Annie Hocker and nephew,
Mr. Owen Hocker, of Ohio county,
have returned to their home after a
visit to the families of Mr. and Mrs.
Kimerling and Mr. and Mrs. Pat
H. Major of the Beverly neighbor-
hood.

Another home-comer who took ad-
vantage of the opportunity last
month to visit his "old Kentucky
home" was Mr. Alex Burba, of
South McAllister, Indian Territory,
who formerly lived here and was a
popular salesman in McKee's gro-
cery. Mr. Burba has been at Sturgis
several weeks visiting his sister, Mrs.
Stevenson, who is quite sick. He
was in this city Saturday shaking
hands with his many friends here and
left that night for Dawson, where
he intended to remain until to-day
and then leave for his home in the
West. Mr. Burba left this city
three years ago and is doing well.
